Red Cross Local Branch Holds Annual Meeting

The annual meeting of the local branch of the Red Cross Society was held at Central Union church on the night of Thursday, September 28th.

The chair was occupied by Rev. Dr. E. H. Gray, and a programme of songs and music together with the report of the past year, Mrs. Carter, for the year occupied the attention of a large gathering.

The report of the past year's work was read, showing in detail the amount of work done during the year 1915-16, as well as amount of money turned over to the central provincial branch and on hand and in bank up to the end of the business year. The report shows an increase of nearly 93 per cent in the amount of work done over the previous year, while the money on hand also represented an increase. The membership now comprises 58 ladies and gentlemen.

At the meeting a collection was taken for the "Prisoners of War" fund, which amounted to \$28.40. After the hearing of the report, a programme of vocal and instrumental music was rendered, including selections by Mrs. T. Moore, of Frank; Mr. J. Smith and Miss Walsh, of Blaimore, after which refreshments were served by the ladies.

The officers of the Blaimore Branch wish to thank the public in general, and the particular patrons of the Red Cross, for their splendid co-operation in making the Society what it is—here and more especially to the ready response of all those called upon to donate for "Sack Day." There was a fine collection of sacks sent in Calgary, as well as a good purse to help fill them.

Blaimore "Sack Day" Contributions

Sacks were donated by the following: Mesdames McLeod, Anderson, Carter, Garrett, Morneau, Purvis, Stevenson, Mason, Sparks, (J. A.) McDonald, McLean, Warner, Sinclair, Dull, Kemp, Monaghan, McPhail, Shearer, Vangsted, Erickson, Walker, Stuart, Pearson, Harmer, Handley, Heywood, Keith, Young, Paden, Chappell, Misses Walsh, Allen and Foster, Mr. Rahal, Mr. Dull, Mr. Beach, Mr. Kalfoury, Wilfrid Dull, A. Friend—Total 70 pairs.

Money was contributed by Mesdames Roberts, Erickson, Legace, Lank, Wolstenholme, Sartoris, Bartlett, A. Friend, Mr. Montalbert, Mr. Novaria, Dr. Gray, S. Trons, G.P.R., H. & R. Crane, Mr. Smith—Total \$28.35. Also, quantities of cigarettes and tobacco from sundry parties.

Anglican Church

In spite of the inclement weather, the congregation last Sunday evening was large, the occasion being the service of Thanksgiving. Plentiful donations of fruits, vegetables, etc., had given great possibilities for decoration, and everyone agreed that the ladies responsible had worked wonders. A word of praise is due the children who had gathered such beautiful foliage. The service itself was inspiring, the beautiful harvest hymns being sung with great heartiness. Mr. Elliott presided at the organ. Mr. Shaw's solo "Dream of Paradise" was most devotionally rendered.

On Sunday next service will be at 11 a.m., conducted by Rev. S. Middleton, of the St. Paul's Mission, Blood Reserve. Those who know of his splendid work among the Indians will readily appreciate this service.

On Sunday evening the Harvest Thanksgiving service will be held at Coleman at 7:30. The special service appointed for this occasion will be used and the anthem "Ye shall dwell in the land" will be sung by the choir. Rev. S. Middleton will preach.

Western Products Win Gold Medal

Westerners will learn with interest that a gold medal was awarded to the Canadian Pacific Railway for the excellence of its exhibit at the Quebec Exhibition, a few weeks ago. The gold medal was for the collective grain display, which was gathered in Western Canada, and was representative of the various grain crops of the Western Provinces. The daily attendance at the Quebec Exhibition ran as high as 75,000, and a very great interest in the agricultural possibilities of Western Canada was shown by the visitors.

Anglia constituency is first in the alphabet and also apparently intends to be first in its contributions to the Patriotic Fund as it has already remitted \$1,115.00 toward the 1916-17 Patriotic Fund. The cheque was forwarded by Mr. Andrew Boyd of the Blood Indian Valley Association a few days ago. Other points which have also sent in creditable amounts to be applied on new Fund are Red Deer \$1,000.00, Coleman \$720.00, Bellevue \$895.30, Camrose \$445.20, Blaimore \$300.00 and Macleod \$300.00. The generous donations already received augur well for the Patriotic Fund for the coming year, as the general campaign for contributions has not yet been started.

Man Accidentally Shoots Himself

An unfortunate accident occurred about four miles from Todd Creek, north of Lundbreck, about 6 p.m. on Friday last, by which Louis Huelk, an Austrian farmer, lost his life. Huelk and his wife were out hunting for rabbits with a 22-calibre repeating rifle. After firing twice at a rabbit and extracting the second shell, Huelk attempted to route the animal from under a tree by the back stock of the rifle, holding the gun by the barrel pointed towards his body. (The trigger tripped in some object and the bullet entered his body just below the breast, touching a vital spot in the heart and resulting in almost instant death.) The man had only time to gasp and say "I'm shot." His wife was terror stricken. She tried to pick her husband up but could not, and by the time neighbors were summoned to the scene the body was cold and lifeless. Coroner Pinkney was summoned from Blaimore and was accompanied to the scene by Dr. MacDonald and a couple of members of the mounted police. An examination revealed that death was caused by the accidental discharge of a gun. The body was conveyed to Blaimore on Monday, where interment took place at the Roman Catholic cemetery, Rev. Father Beaton, of Bellevue, officiating.

Mild Winter Predicted

Indians assert that the coming winter will be one of the mildest in recent years. They base their prediction on the following signs:
The oak trees have no acorns.
Squirrels are seldom seen.
Muskrats have not started to build their winter homes.
Fur-bearing animals have thin coats.
Here's hoping the Indian is a true prophet.

A grand ball will be given at the opera house on Monday night next (Thanksgiving), commencing with the grand march at 9:30 sharp. Arrangements for good music have been made, and a good time is promised everyone. Supper will be served at midnight. See bill.

New Atrocities Amaze the Slavs

Germany's Most Recent Attack On Non-Combatants Ends Merely At Hands of Poles

Russians are no less mystified than are the Americans, French, Swedes and the rest of the world, as to what most persons call "atrocities" committed by Germany against non-combatants. These deeds, say people here, stupidly antagonize the chivalrous sentiments with which the world is willing to regard the hard and more or less clean fight the German armies are making on all the fronts in its superhuman effort to hold the territory already gained. The deeds in question, Russians think could not have been better calculated to kindle neutral opinion and galvanize the foes of Germany by haired to sterner and more relentless efforts, says a report from Petrograd.

"Public opinion here in recent weeks has been shocked by the news of a hospital ship on the Black Sea, the summary execution of Captain Fryatt, the seizure and murder of Zeppelin raids on England involving the death of non-combatants.

Now comes information that German airmen have bombarded a passenger train occupied by old men and women fifty miles behind the front. Russians say the occurrence was deliberate, and that the cruel and cowardly massacre of civilians many leagues away from the front, the turning of the fighting lines was entirely indefensible on the plea of military necessity or accident.

The passenger train occupied by old men and women was fifty miles from Dvinsk, on the Russian border. Some miles from the station of B—, in a region of open fields, with no other train approaching, and the building near by. About 7.30 a.m., an aeroplane was seen coming up.

Shutting off its engine, the pilot of the aeroplane soared over the train at an elevation of only about 200 feet and dropped bombs which missed the coaches by a few inches. Even then the passengers thought it must be a Russian machine, and when the bomb had dropped accidentally, for the craft flew the Russian flag.

It was, however, a German Albatross. It dropped a second bomb which also missed, but the third bomb fell on top of a third-class car in the middle of the train. It was crowded with passengers, and the explosion killed or wounded several peasant women and children.

The German pilot then circled round and sped back towards the front. "This occurrence has become widely known among the British and advancing Russian armies with the obvious result that its recollection will probably decide the fate of the German men who might otherwise have had mercy shown to them at a moment when the British and Russian soldiers had the choice of killing or taking them prisoners.

The Progress of "Culture"

What It Has Done to Assist Germany in the War

The German outrages steadily rise in gravity and heinousness, and the outsets the hideous massacres of Belgium, the infamous, the infamy of Louvain, and the barbaric outrages against women. We have had in the later months of the war, the murder of the wounded, the systematic execution of our prisoners, and the infamous treatment of the French civilian population at Lille, which is being systematically enslaved to minister to the conqueror's lust for gold and for profit. We had the German army, the traitors and non-combatants in the Lusitania and the shooting of Miss Cavell. Now a "cultural" campaign on the largest scale is imminent. The assassination of Captain Grey, and the martial part of a settled, cold-blooded policy. It has been committed deliberately, and the object of terrorizing the officers of our merchant service and frightening them from offering any resistance. If they can be cowed, the German argues—and he knows nothing of their character—and the cause of culture—our food supply can be cut off and Great Britain is undone. Culture is supreme, the cause of liberty and civilization has for ever perished—London Daily Mail.

The Iron Ring Around Germany

With Italy no longer bent up, and bound to make common cause with her allies, the aspect of the great arena assumes a distinctly new phase. As never before it is now clear that, at whatever front, one great battle is raging, thrusts behind the lines, are parts of one action, they are tactics in the development of the strategy which begins to encompass Germany, Austria and Turkey.

How will it all end? Who can say? Certainly only it is that there is now an iron ring of enemies around Germany—a ring that the Kaiser when he conjured it as a reason for precipitating the conflict of the world has brought it into being.—New York Globe.

A Water Cure

"It's no use," growled Mr. Smith to his wife from the bathroom; "I can't do it."

"What is it, dear," asked his wife, in alarm.

"Why, the doctor told me this morning to drink hot water an hour before dinner for my indigestion. Here I've got a quart down, and am nearly bursting, and I haven't been drinking fifteen minutes yet."

— Windsor Magazine.

The Kaiser's Memorial Card

A Suggestion Is Offered for Wilhelms' Consideration.

In the midst of his labor on two military fronts and in the harvest fields, Emperor Wilhelm has had time to devote a memorial card to the Kaiser's is thus described:

"On the card is a picture of Christ, holding out both hands in blessing over a sinking ship. Surrounding the figure of Christ are the words:

"Which still the noise of the sea, the noise of their waves and the tumult of the people."

"Under the picture is this inscription: 'To the memory of...'

"The eminent designer of this work of art has not, it seems to us, availed himself to the full possibilities of the occasion. How much more appealing, for example, the card would be if instead of a sinking ship it bore a picture of the sinking Lusitania, and in place of the legend selected by the Emperor, this familiar injunction:

"Suffer the little children to come unto me, and forbid them not, for of such is the kingdom of God."

On the reverse side, to complete the memorial, this warning might appropriately appear:

"And whosoever shall offend one of these little ones, he shall offend me, it is better for him that a millstone were hanged about his neck and he were cast into the sea."

Thus adorned, the Imperial memorial card would have met more nearly the need of the hour, and with its present decorations. — From the New York Sun.

True Story of a Lady

A Patriotic French Woman Who Kindly Sympathized With the Boches

In the hour of need we may turn to the anecdote which supplies the concrete illustration of the essential fact, and it would not be easy to find an anecdote more significant than one which has been told in New York in the country this terrible war. A Frenchwoman engaged as a teacher in an important school of the Boches in the country, and the cause of her country that, when she heard a casual acquaintance, a Frenchman, say about France she up and boxed his ears. This, you may say, was all the evil moment when the French and Boches not a lady, in any exact use of the word. But even in the temptation, the fell from French this occasion, none the less did she possess the indispensable instinct which is the vital factor.

Riding in a subway car in the crowded noon hours, this Frenchwoman could not help feeling that a woman seated opposite her was a Boche. Finally when this woman began to box, the French lady, who was seated opposite her, said: "You seem to be in trouble. Can I do anything for you?"

The Frenchman put out her hand, and said: "I am a Boche, and I have no sympathy with you. And perhaps you will be willing to accept my sympathy when you are a Boche, too."

The Frenchman put out her hand, and said: "I am a Boche, and I have no sympathy with you. And perhaps you will be willing to accept my sympathy when you are a Boche, too."

And the Frenchwoman "unhesitatingly replied: 'Yes.'"

It took a woman to make that noble answer, and perhaps it could be made only by a woman of France, a country where the social instinct is cultivated from the cradle.—From the Point of View, in the September Scribner.

A War Analogy

We do not have to pass the analogy of other wars too far, but there is one which will help people to understand the situation. Abraham Lincoln, in the last year of the war with the South, would never listen to wretches for peace, however great the concessions which appeared to be offered him. Love of peace and hard of war as he was, he knew that the only way to end a war which would justify the nation for having waged it was by dictating terms, and not by negotiating with the enemy.

He acted not out of any feeling of revenge, but because he knew that the South must fight on till it could fight no longer. — The Spectator.

"Do animals possess the sentiment of sympathy?" asked the school teacher of the little girl.

"Yes, ma'am. Almost always," the teacher replied. "I have been turning to a little boy who has a human animal has the greatest natural fondness for man."

The small boy considered carefully, then returned: "Woman."

Wheat That Resists Rust

Success Attends Long Series of Experiments by Prof. Boley

The enormous damage done to the spring wheat crop in Manitoba and elsewhere has brought to light one of the most sensational successes of the experimental farms. To Prof. Boley, of the North Dakota Agricultural College, must be given the credit of producing a wheat that resists rust.

Along in 1903 Prof. Boley personally selected individual plants from the Russian wheat fields south of Kazan and on these he has been working for thirteen years. The wheat has been a success, but owing to certain defects in its milling qualities it has not been regarded with favor until the present year. In face of the enormous damage done in the Dakotas and Minnesota this year it is the sensation of the hour, and the districts which have had the courage to grow this variety are in a position to provide many others with seed of a quality which would have been unobtainable if they had not had the wheat.

The wheat is by this time a cross between the original Russian wheat and durum, which, and possesses many of the characteristics of the latter variety. Not only is it resistant to the rust, but it is also immune from other fungal and fungus root blights. It held its own in the year of 1904, and has been growing in favor in certain districts ever since and the kernels are being sown in the fields.

The chief objection to this variety of wheat is that the flour is of a dark color. The elevator men bought it without discrimination for a year or two, and then gave it far more quickly than the milling test warranted. It is a heavy yielder, and its conditions, and especially on the drier and lighter lands. It has mainly been tried on the "under plots" which are to be discarded, and to those disease germs were due many of its black spots.

Prof. Boley says of the wheat which he is growing in the field, which are due to disease only. When these are cultivated on the newer and better lands, the color of the flour may naturally disappear.

Confiscating Contraband

The Humor and Glory of the Censor's Museum

When the war is all over, and we can look back upon its little ironies, humors and minor tragedies, one of the most attractive places in which to study these phases of the war will be the museum of the censor in the various belligerent countries. The effectiveness of the British blockade is responsible for many of the exhibits that already crowd the space allotted to the censor's museum in Great Britain.

Upon entering one is introduced to a parcel of books for "the lonely soldiers at the front, or at least that is what it seems to be till you begin to study the literature. Then you begin to see the remains of a soldier's pass on. A cask of rags, collected for suffering children, and shipped to the censor's museum, and a bundle of letters, containing drugs and surgical appliances.

A pound of lard was artistically displayed to represent a copy of the Springfield Republican or a packet of pure maple syrup to look like a bundle of narcissus bulbs.

There is one specimen that has not been mentioned, and that is a parcel of 15 lbs. of bacon. That is not very unusual, but this bacon is not as other bacon—that is evident. The man who was sending this to Germany thought so much of his gift that he sent it better post and panted stamps on it to the value of 15s. for every pound of bacon in the package. Somewhere in Germany there is a family still waiting in very much the same way that Mother Hubbard's dog had to wait.

At these innocent bundles of newspapers are not what they seem. The neatly rolled ends are but the covers of a mine plan, for paper and wood. Pull one of these plugs out and you will find a long sausage-shaped bundle of cables to be used in the world of mine to Para rubber, from rice to tobacco.

A Steady Flow

A truly eloquent person in the south had been preaching for an hour or so on the immortality of the soul, and in the midst of the sermon he claimed, "and could not help thinking 'Beautiful as you are, you will be destroyed by the end of the world.' I gazed upon the ocean and cried 'Mighty as you are, you will eventually dry up, but not I!'"

Scotland is shipping, with the assistance of the British Government, 100 pure-bred milk cows to Japan.

Dairy Shorthorns

Remarkable Results Are Being Secured in Alberta

Dairymen in prominent feature in the work carried on in connection with the demonstration farms and schools, conducted by the Department of Agriculture in the Province of Alberta. As part of this work, demonstrations have been given as to the capacity of the double-purpose Shorthorn as a milk producer. Records made in the Alberta Provincial farms have not quite equalled the best made at the Ontario Agricultural College, where the best Shorthorn, gave 10,472 lbs. of milk in a year. What has been accomplished in Alberta would, however, be creditable under any circumstances, and is especially so in view of the fact that the Alberta records were made by cows imported from Ontario, and that had not as yet been fully acclimatized in the West.

At the demonstration farm at Sedgebrook, Alberta, the Shorthorn cow, Lady McKay 2nd, gave 10,472 lbs. of milk in a year, and two other cows gave 9,999 and 9,206 lbs. of milk respectively. Fourteen cows of the same breed at this farm, five being two-year-olds, and one three, gave an average of over 6,000 lbs. of milk for the year.

The most interesting feature in connection with this being done with dairy Shorthorns at these Alberta demonstration farms is found in the records of the best cow of the herd bulls. This bull is Butty King, he has, says the official report of the Department of Agriculture, all the characteristics of the choicest dairy Shorthorn sire, and the same time he was a good sire in his prime have stood in good company in any beef show ring. This bull is the sire of one of over six months of 8,345 pounds of milk in nine months; another, which is credited with 5,294 pounds in a year.

Source of German Alarm

Adoption of Compulsory Service by Great Britain Worries German Press

One of the features of the lengthy forces of the second year of the world war published in the London newspapers of the last Sunday of July is the serious comment upon the adoption of compulsory military service in England. The Cologne Gazette, as quoted by the London Times, said in its review:

"Among the surprises of this war is the fact that it has brought England to the introduction of universal military service—the greatest internal revolution in England's modern history. Even those who knew England well clung to the last to the belief that it would not be possible to force upon the English people such a measure as this. The English people will appreciate the full extent of this sacrifice, and measure thereby the seriousness of England's intention to make Germany harmless for English purposes. Nothing more plainly shows the immense seriousness of the war than the fact that England has decided to adopt this measure. Of Interest to Farmers

Farmers who desire to utilize their sur-
plus cattle feed during the coming winter
for fattening purposes are offered special
inducements by the Canadian Pacific
railway to add to their herds by a reduction
in freight rates of the company on cattle
returned from Calgary, Edmonton,
Winnipeg, Moose Jaw or Saskatoon to
country points.

Canadian Pacific railway officials an-
nounce that the reduced rates will be-
come effective immediately and will ap-
ply to cattle intended for breeding, fin-
ishing or feeding. This reduced rate is
intended as an inducement on account of
the fact that this year there is an un-
usual amount of grain in the country that
will not go to mill and farmers will find
it very profitable to use this for the
preparation of stock for market.

These rates apply to all stations in
Manitoba, Saskatchewan, and Alberta
except stations west of Canmore in Al-
berta, and only on cattle returned to
farmers for breeding, finishing or feeding
on production of signed certificate par-
ticulars of which will be furnished by
the railway agent bearing the signature
of the local secretary of the grain growers
association and that of the provincial
secretary of the same association.

Chestnuts

(From the Trumbull Cheer for August.)
When a woman uses her husband's
razor to sharpen a pencil, she usually
gets him into a bad scrape.

Never object to finding a button in your
salad—it may be needed for the dressing.
(Wow.)

Of course, having your leg pulled
makes you short.

Come in without knocking and go out
the same way.

Don't wait for the BOSS, be a self-
starter.

Two publicity men were attending a
social function, they arrived early and
were watching the other guests come in.
Presently a lady entered, heavily laden
with diamonds. The two gasped in as-
tonishment.

"Some display in front," said one.

Just then the lady turned. The dress
was cut extremely low in the back.

"Yes," agreed the other, "and some
cut on the back cover."

A European tourist some time ago was
claiming to an American citizen that
America was far behind the old countries
in waiting places. "Take England,"
she has her Bath; France has her Aix
les Bains; Germany, her Baden Baden.
What has the United States?" Up piped
the American citizen "Saturday Night."

(Oh, you Sept. Men.)

A Tacoma traveller tells about a young
boy who had been brought up very ex-
clusively by his widowed mother. In
fact, up to the time he was to go to col-
lege, he had only met one boy, and two
girls, so secluded had they mamma kept
him. After she had sent him off to col-
lege all alone, she became greatly wor-
ried, fearing for his welfare after so much
seclusion, and so hurried after him. She
found him out, and so sat down to wait.
She waited and waited, but waited un-
til finally in the wee small hours dear young
appeared. He at once threw himself in
her fond arms and sobbed and sobbed
and sobbed. "Why dear sonny, pet
lovey dove, what is it?" cried the mother.
"Oh mother, I have just been out with
my friend taking two chorus girls out to
lunch after the theater, and the dirty
horrid things say there isn't any Santa
Claus, boo-hoo-boo-hoo."
No, the fellow who fell out of the win-
dow hadn't been drinking, even if he
did take a drop too much.

Blaimore Social Club

At a meeting of citizens held in the
Oddfellows' hall on Monday night, the
"Blaimore Social Club" took its
form. The meeting was well attend-
ed, and was presided over by Mr. L.
P. Robert, of the West Canadian Col-
lieries, while Miss M. Walsh acted as
secretary. The purpose of the club was
presented for consideration, after the
purpose of the proposed organization
had been clearly outlined by Dr. E.
H. Gray.

Following the adoption of the con-
stitution, the election of officers took
place, resulting as follows:

liams

try—W. Shaw.

Raoul Green.

Green, chairman, Miss K. B. Dar-

rach, Miss V. Keith, J. Russell, W.

J. Bartlett.

It is proposed to hold meetings at
least fortnightly, but the date and
place for next meeting has not yet
been arranged.

The new club starts out with a
membership of about twenty-five. A
membership fee of \$1.00 per annum is
charged, and an amount of fifteen
years or over is eligible for member-
ship.

The following clause from the con-
stitution outlines the objects of the
new organization:

(a) To create a taste for, and an
appreciation of, good literature and
good music.

(b) To educate its members in the
great fields of philosophy and
science.

(c) To discuss practical questions
of commerce, industry, and finance.

ipal and Canadian citizenship by the

(f) To train its members in the
historical and forensic arts.

The Preacher Man

Lives of preacher men remind us
That in this cold world of sin,
When some woman cannot boss us
Then our troubles do begin.

If the preacher's young and zealous
Then the older women say—
Mr. Jones may well be jealous—
For that preacher's there each day.

If a sweet-faced, lovely member,
Whose the preacher as her bean,
Then the other bunch, forsaken—
Say—that preacher he must go.

If the preacher man is older
Than the leading lady thinks
Should be sent to them. Behold her
Sundering the sacred links.

Lives of preachers thus grow weary
For no one can please them all.
If you're tall, you should be shorter,
If you're fat you should be tall.

If you're short you should be thinner,
Fatter if you now are thin.
Something sure will be the matter
With your eyes, your nose, your chin.

If you're married, then a single
Man is just what they desire.
If you're single, then you're bound to
Wed the girl that leads the choir.

So just what you are don't matter.
What they want is what you ain't.
If you're pious—they don't want you;
If you're "loose," they want you.

If you live they want you quiet;
Quiet—they want more fire.
There's no living man or angel
Who can be what all require.

Mr. and Mrs. John Hutton, of
Bellevue, have received word that
their son George has been wounded
at the front. This is the second

within a short time.

Some of Bellevue's young men
who have been in the habit of tak-
ing a young lady to her home in
Hillcrest and afterwards escorting
a couple of others from the Hill-

or someone will be taking action.
Nuff said.

Rev. Dr. Huastis, secretary of

Mrs. James Davidson, daughter
of Mr. and Mrs. John Hutton, has
arrived from Scotland. Her hus-
band has been called up for service
in the Old Country. This is five
sons and one grandson and one
son-in-law that Mr. and Mrs. Hutton
have doing their bit for King
and Empire. Not a bad record.

"Bob" Evans made a trip to Cal-
gary this week with a load of five
passengers. He intends making
weekly trips while the weather will
permit, and is charging the same
fare as the C.P.R. with a day's run
to Calgary, two night's stay and a
return home. Those who have un-

splendid.
